- Time Management
- Problem-Solving

About Me

Highly motivated and collaborative Full-Stack Web Developer with over 1 year of professional experience, specializing in creating exceptional user experiences. Proficient in the MERN (MongoDB, Express.js, React.js, Node.js) stack and experienced in designing, coding, and modifying websites to meet project specifications. Skilled in working with diverse teams to implement new features and elevate website functionality.

Professional Experience

VowelWeb LLP | MERN Stack Developer *Feb 2023 – Present*

Project Profile: MERN Stack Developer
Client: Whizlabs
Project: Admin Side Development

- Collaborated with the Whizlabs team to develop the admin side of the platform.
- Added functionality for administrators to manage courses on the website.
- Implemented a user-friendly interface for administrators to add courses to specific categories, allowing easy organization.
- Developed drag-and-drop functionality for administrators to arrange categories in preferred sequences.
- Enabled users to upload PDF files as reading materials for their learning courses.
- Implemented PDF upload functionality, securely storing files in the associated S3 bucket for each user.
- Added point method functionality, allowing users to earn credit points for their activities.
- Users can utilize earned credit points for their activities or redeem them for courses on the platform.
- Developed login and forget password functionality for administrators to log in or reset passwords for the admin side.
- Developed back-end functionalities to handle user data, permissions, and access control.
